# GstarCAD 2025 System Requirement

Before installing GstarCAD, please confirm whether the specifications of your PC meet the following requirements:

- **OS (Operating System)**

Windows 11

Windows 10 version 1507 or higher: Home, Professional, Education, and Enterprise (LTSC and Windows 10 S are not supported)

Windows 8.1 (with Update 2919355): Core, Professional, and Enterprise

Windows 7 SP1 (with latest Windows Updates): Home Premium, Professional, Enterprise, Ultimate

Windows Server 2016: Standard and Datacenter

Windows Server 2019: Standard and Datacenter

Windows Server 2022: Essentials, Standard, Datacenter

**Note:** GstarCAD and related tools are developed and compiled with visual studio 2017. In order to ensure the normal operation of the software, the operating system needs to be able to install the environment package of visual studio 2017 normally.

- **CPU**

1.6 GHz processor (2 GHz or faster Multi-core processor recommended)

- **RAM**

2GB (8GB recommended or higher)

- **Graphics Card**

1 GB GPU (2 GB GPU recommended or higher)

- **Hard Disk**

The system and installation disk need more than 1 GB of space. (10 GB recommended or higher)

To improve performance, it is recommended that the software be installed and stored on a solid state drive (SSD).

- **Display Resolution**

1024\*800 or above; GstarCAD will work best at a resolution of HD and 4K resolution.

- **Additional Requirement**

Administrator rights are required to install GstarCAD and license tools.

.NET Framework 4.8 or above (Only for custom software development).

The network license server and all workstations running applications that rely on network licenses must support the TCP/IP protocol.
